

**symposium on decision  
neuroscience 2016**  
June 17, düsseldorf, germany

# Düsseldorf Symposium on Decision Neuroscience - June 17, 2016

## Program

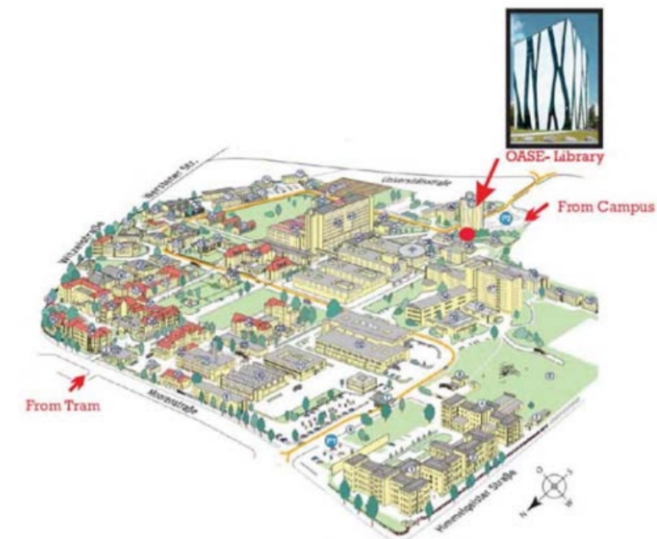

- 10:30 Introduction  
Tobias Kalenscher, Comparative Psychology, HHU Düsseldorf
- 11:00 Arbitration between model-based and model-free learning  
John O'Doherty, Caltech Brain Imaging Center
- 12:00 Brain circuit mechanisms for self-control failure  
Joshua Buckholz, Center for Brain Science, Harvard University
- 13:00 Lunch break
- 14:00 The evolutionary origin of pro-sociality  
Judith Burkart, Anthropological Institute and Museum, University of Zürich
- 15:00 Coffee break
- 15:30 Social decision-making - distinct causal neural mechanisms?  
Christian Ruff, Laboratory for Social and Neural Systems Research, University of Zürich
- 16:30 Drinks

## Want to join?

Participation is free, but we ask all participants to register with the organizers. Please send an eMail to [adam.schweda@hhu.de](mailto:adam.schweda@hhu.de) to register. Because space is limited, registration is binding, but can be cancelled up to 2 weeks before the symposium.

## Location

- Address: Library OASE  
Universitätsstraße 1  
40225 Düsseldorf, Germany
- Tram: Catch tram 704 (to Christophstraße / Uni Nord or Uni Ost) in front of Düsseldorf main station and exit at "Uni-Kliniken".
- Car: Free parking available next to Mensa.
- Taxi: Ask the driver to take you to Uni-Hospital / MNR-Klinik and he/she will drop you off right in front of the venue.

## Any questions?

Write an email to [adam.schweda@hhu.de](mailto:adam.schweda@hhu.de).  
You will be informed about any changes after registration.
